

Extracts from the Address of Mr. Caruthers of Missouri to his Constituents.

The contest for the speakership developed the fact that there are now three parties in the country—the northern, the middle and the southern. The northern party is the name of the abolition party, the middle party is the name of the moderate party, and the southern party is the name of the conservative party. This is a new thing in the history of the country, and it is a new thing in the history of the speakership. It is a new thing in the history of the country, and it is a new thing in the history of the speakership.

I have been often asked if I am not in favor of reorganizing the whig party? I answer that, in the present condition of parties and the country, in my judgment such an effort can do no good, and might do great harm. I have been often asked if I am not in favor of reorganizing the whig party? I answer that, in the present condition of parties and the country, in my judgment such an effort can do no good, and might do great harm.

Where have we an ally in the North outside of the democratic organization? There are allies in the North, but they are not the allies of the democratic organization. They are the allies of the abolition party, the middle party, and the conservative party. They are the allies of the abolition party, the middle party, and the conservative party.

Listen to Ohio! Steeped as she has been in free-soilism, in State convention assembled, with the boldness of right, with the candor of manhood, they declare, on the 8th day of January last, as follows: "1. Resolved, That slavery (being the creature of positive law, created without it is a domestic institution, and that Congress has neither the power to legislate it into any Territory or State, nor to exclude it therefrom, but to leave the people thereof perfectly free to form and regulate their domestic institutions in their own way, subject only to the constitution of the United States."

"2. Resolved, That the right of the people of each State and Territory to establish their own constitution and form of government, to choose and regulate their own domestic institutions of every kind, and to legislate for themselves, is a fundamental principle of all free government; and that it is the self-same right to secure which our ancestors waged the war of the revolution—a right lying at the very foundation of all our institutions, recognized in the Declaration of Independence, and established by the Constitution of the United States; and we hereby endorse and re-affirm this now disputed principle."

Contrast this with the resolves of the Know-Nothing convention at Cincinnati. Listen to Indiana, as she, too, speaks in her Democratic State Convention. She says: "Resolved, That we approve the principle of the compromise measures of 1850, and their application, as embodied in the Kansas-Nebraska bill, and will faithfully maintain them."

Hear the democracy of New York, as they, too, in convention declare: "Resolved, That the determination of Congress, avowed in the Kansas-Nebraska bill, to reject from the territorial councils the subject of slavery in the Territories, and to leave the people thereof free to regulate their domestic institutions in their own way, subject only to the Constitution of the United States, is one that accords with the sentiments of the democracy of the State, and with the traditional course of legislation by Congress, which, under democratic auspices, has successfully, in successive territorial bills, extended the domain of popular rights and limited the range of congressional action; and that we believe this disposition of the question will result most auspiciously to the peace of the Union and the cause of good government."

All, everywhere, from Maine to Texas, speak the same language, declare the same principles, and rally under the same flag. These resolves, which the Know-Nothing party, but two years old, has managed, even in that short time, to be in favor of secrecy against secrecy, in favor of test oaths against test oaths—in some States for the Catholic test, in others against the Catholic test—on one side of the Union for the Catholic test, on the other side against the Catholic test; and in their late convention, one time the southern chivalry, at another the northern free-soilers bolt, and tell me if you can support such a party even though Millard Fillmore is its candidate for the presidency!

As to the black republican party, it has now the Speaker of the House of Representatives. Encouraged by past successes, it has become insolently bold, and grasps with an eager hand the reins of government. If it succeeds, it will elect a President, and then it will have both houses of Congress, it will have the reins of government, and it will have the reins of government.

I have seen the democracy come down from the North and up from the South, and gathering in solid ranks around the constitution, declare that the rights of the South, the just equality of the States, the capacity of man for self-government, are the capacity of man for self-government, are the capacity of man for self-government.

quiet sea, I shall turn round to my democratic brethren, and, if I have any unadjusted quarrels, I will settle them then.

**SAMUEL CARUTHERS,**  
Washington, Feb. 28, 1856.

We find in the Camden Journal the following letter, which contains valuable information:

WASHINGTON, March 18.

DEAR SIR: At the request of the Hon. W. W. Boyce, I take great pleasure in giving you such information in regard to Kansas as will be useful to persons emigrating to that country. In regard to soil, Kansas is unsurpassed, producing from sixty to eighty bushels of corn per acre; twenty-five to forty bushels of wheat per acre. The finest soil I have ever seen grow, we raise in Kansas. In fact, I have never grown wheat in Kansas (except cotton) that does not produce more to the acre than on the best lands of Tennessee.

Besides being a fine grain and grass country, it is a part of the temper region of the United States. Here is decided advantage for the planter of the West. Missouri is making more money per acre than is made in any other State in the Union. It is nothing uncommon for farmers to pay three hundred dollars hire for negro men per year. White men cannot be hired for less than \$25 per month. In addition to our advantages as an agricultural people we have a trade with New Mexico, Utah, Oregon, and California, amounting to several millions of dollars per annum, besides our Indian trade amounts to more than one million per annum. In addition the Government for military supplies expend a very large sum.

Military stores are sent out to all the posts of New Mexico and the Indian country, and to give you some idea of the amount of transportation required for the Government, I will state that last year employed over seven hundred men and twelve hundred wagons, each drawn by twelve oxen. Kansas is the starting point for all emigrants going West of us. I was raised in Tennessee, and I say to you in all candor, that I have never seen any country that possesses as many advantages to new or old settlers as Kansas. It is a country that will give you a similar soil to Kansas, make from six to eight hundred dollars a hand per annum. This, I think, I have no doubt, seem large to you, but I assure you it is strictly true.

The climate of Kansas I regard as being far better than in Tennessee; from last September until the first of March we have but little rain—mostly clear, dry weather. The past winter has been, though, colder than ever known before. Our country is healthy, very healthy; in some localities cholera and fever prevail to some extent—we have no pulmonary diseases in Kansas. In regard to supplies you can procure anything you may want in Missouri—if you get to Kansas by May or June you can raise plenty of corn. Our lands are ready cleared—you can make your location one day and commence farming next.

Land Warrants.

An intelligent dealer in land warrants has furnished the *National Intelligence* with the following statement, which may convey useful information to persons concerned:

"The price of land warrants, like that of every commodity of intrinsic value, depends upon the known laws of supply and demand, and a careful observation of these laws must indicate with more or less correctness the range of prices for the future."

"A PERFUMED BRAT."—What lady or gentleman would remain under the curse of a disagreeable odor when by the use of "Balm of a Thousand Flowers" as a dentifrice would not only remove the odor but leave the teeth white as alabaster? Many persons who are afflicted with this kind of a defect in their countenance, and who are otherwise well, are often in the habit of using a tooth powder, which is a great deal of trouble, and which is often of no service. A single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty-cent bottle will last a year.

"A BEAUTIFUL COMPLEXION may easily be acquired by using 'Balm of a Thousand Flowers.' It will remove all kinds of blemishes, and leave the skin as white as a sheet of paper. Wet a towel, pour on two or three drops of the 'Balm,' and wash the face night and morning. A fifty-cent bottle will last a year."

The subscriber respectfully announces himself to his fellow-citizens of the County of New Hanover as a candidate for re-election to the office of Sheriff, and trusts that his efforts to discharge faithfully and acceptably the duties of the office will secure to him a continuation of their suffrages.

**E. D. HALL,**  
March 11, 1856—1856-1857. Her and Com. copy.

**NEURALGIA.**—This formidable disease, which seems to be the best blood purifier known, yields like magic to Carter's Spanish Mixture.

Mr. F. Boyden, formerly of the Astor House, New York, and late professor of the School of Medicine, New York, is one of the hundreds who have been cured of severe Neuralgia, by Carter's Spanish Mixture.

Since his cure, he has recommended it to numbers of others, who were suffering with nearly every form of disease, with the most wonderful success.

He says it is the most extraordinary medicine he has ever seen used, and the best blood purifier known.

For sale in Wilmington, N. C., by Wm. H. LIPPITT & Dr. A. O. BRADLEY, Druggists, Feb. 19, 1856.

**THE TRIUMPH COMPLETE.**  
Another perfect cure of Epilepsy by Dr. Hume's Epileptic Pills.

DR. HUME'S DEAR SIR, I have been afflicted with Epilepsy for some years past, I determined to give your Pills a trial, (advertisement of which I saw in some of the papers,) and, to my great satisfaction, I have been cured. I am, very respectfully,  
Yours, &c.,  
JOHNATHAN J. JACOBS.

NEW YORK, N. Y., Feb. 1, 1856.

Dr. Hume's Pills were recommended to me by Mr. Nathan P. Smith, of New York, and I have been cured of Epilepsy. I am, very respectfully,  
Yours, &c.,  
JOHNATHAN J. JACOBS.

**WHAT OR WHICH IS THE BEST VERMIFUGE OR WORM DESTROYER.**  
It is a question daily asked by parents, anxious for the health of their children. All who are acquainted with the article, will immediately answer, Dr. McLANE'S VERMIFUGE. It is a simple, safe, and effective remedy, and is the only one of the kind that can be used. A friend of ours lately handed us the following statement in reference to this Vermifuge:

GENTLEMEN—A young lady of my acquaintance had been for a long time very much troubled with worms. I advised her to try Dr. McLANE'S VERMIFUGE, and she was cured. I am, very respectfully,  
Yours, &c.,  
JOHNATHAN J. JACOBS.

**THE GREAT RUSSIAN REMEDY.**  
PRO BONO PUBLICO.

"Every mother should have a box in the house handy in case of accidents to the children."

It is a Boston remedy of thirty years' standing, and is recommended by physicians. It is a sure and speedy cure for Burns, Piles, Boils, Cancers, Felons, Chills, and Old Sores of every kind; for Fever, Sore Throat, Itch, Scald Head, Nettle Rash, Eruptions, Scabies, Eczema, and all kinds of skin diseases. It is a simple, safe, and effective remedy, and is the only one of the kind that can be used. A friend of ours lately handed us the following statement in reference to this Russian Remedy:
